GitHub

K12, Texas — *Teacher*

FEBRUARY 2021 - AUGUST 2021

- Virtually taught 18 kindergartners who were not offered a virtual option through their local school district during Covid-19, after a condensed onboarding process that required quick learning as I received my students the week after I was hired.
- Flexibility and effective communication needed daily to support students and parents who were frustrated with virtual learning and dealing with technical difficulties.
- Collaborated and analyzed weekly data with teammates to better target students' needs.
- Utilized Newrow Smart Virtual Classroom as platform for online classes.
- Advocated at a state government level for the continuation of virtual learning for students who needed the option.

Wesley Prep, Dallas, TX — *Teacher*

AUGUST 2018 - JULY 2020

- Taught preschool students part-time.
- Implemented social-emotional teaching techniques for students who were just starting to speak.

Plano Independent School District, Plano, TX — *Teacher*

AUGUST 2012 - JULY 2017

- Effectively led a team of first grade teachers to implement best-practices, refer to student data, and have productive daily meetings.
- Delegated team duties and relayed information from administration quickly.
- Consistently communicated with administration and parents to advocate for students.
- Always remained flexible to the needs of students.
